As the ticking clock reminds you, only 60 minutes remain to complete this oh-so-important predictor of your future. But you didn't get the review sheets, the teacher doesn't like you and your classmates are blatantly cheating. Time passes and the voices in your head remind you that though you are having trouble with the test, your personal life is far, far worse. Then you reach the essay question. The good news—it's an opinion essay. The bad news—it's in Chinese. And things aren't going to get better!
